# OUR COMMUNITY...

Many residents were born and raised here and are now raising their own families within the community that offers rural, village and lake property living. There are quaint colonial homes dating back to the 1800s that line the village streets as well as newly constructed houses in developing subdivisions nestled among the vast open spaces of the country.

Located just 20 miles from Schenectady and Albany and with easy access via Interstate 88 to other nearby cities such as Troy and Saratoga Springs, the close proximity to educational, cultural, social and outdoor activities makes Duaneburg a suitable place for families to settle.

# RECREATION ABOUNDS

Some highlights of the area that residents and visitors alike enjoy are:

- ✎ Weekends filled with **downhill skiing and snowboarding** at Maple Ski Ridge and Cross-country skiing and snowshoeing at Oak Hill.
- ✎ Hiking and biking trails as well as leaf-peeping and bird-watching opportunities at Christman Sanctuary and Vroman's Nose. The short distance to the mountains in the Catskills and Adirondacks is an added bonus.
- ✎ The popular Schaffer and Van Patten Parks which have **tennis and basketball courts, nature trails, covered picnic areas/pavilions, a playground** and more.
- ✎ The **short travel to various golf courses** at such locations as Iron Works, Altamont Orchards, Stadium Golf and Schenectady Municipal.
- ✎ **Year-round athletic opportunities for children** such as the Duanesburg Youth Basketball League, Little League, AYSO Soccer, Pop Warner Football, Electric Eels Swim Team and Youth Wrestling.

# RICH LOCAL HISTORY

The Town of Duaneburg was proudly named in honor of Judge James Duane, the chief proprietor of the town in 1765, who played a major role in the American Revolution as a founding father of our republic. Duane was also the first mayor of New York City, a federal district court judge, a member of the First Provincial Congress and also helped found the New York State government and its constitution.

- ✎ For those interested in local history, **the Town of Duaneburg has over forty national registry structures** including Federal, Greek Revival, Italianate, octagonal, Victorian and saltbox architectural styles, contains 643 structures identified as historic by New York State, 55 cemeteries and 15 natural sites of interest.
- ✎ Two of the town's most visible treasures are the Christ Episcopal Church and the Quaker Meeting House. **The Christ Episcopal Church, consecrated in 1793**, was given as a place of worship by James Duane to the people of Duaneburg. It is considered to be the oldest Episcopal Church in New York State that still stands in the "quaint" simplicity of its original structure. **The Quaker Meeting House, built in 1807** by an early settlement of Quakers, has been in continuous use since it was first opened. The building, in the hamlet of Quaker Street, still embodies the spirit of simplicity and plainness of the Society of Friends.
